LYON'S MAGNETIC POWDERS. Will destroy Garden Insects, Cockroaches, Bed-Bugs, Fleas, Ants, Moths, and all pests of the vermin kind.

The importance of a reliable article of this kind is inestimable. In warm weather all nature teems with these aunoying foes. This powder is the only article ever discovered which will exterminate them. A company of botanists, from the Horticultural Society of Paris, while amidst the ferns of Asia, observed that all insects lighting upon a certain kind of plant very soon dropped dead. This fact was changing his business, offers for sale his LANDS, made use of to guard their night camps from the intruders. Quantities of the plant was brought home by Mr. E. Lyon, and found a positive insect destroyer in every experiment. It is simply a powdered leaf, chemically prepared to resist the effect of age and climate. Medals and Letters Patent HUNDRED AND FORTY ACRES. There is cleared have been obtained from the governments of England, have been obtained from the governments of England, land sufficient to work three ploughs, of which are fifteen France, Germany and Russia, from the World's Fair, and or twenty acres of good river land, and an excellent lownumerous medical and horticultural colleges and societies.

Letter from the President of the United States. "EXECUTIVE MANSION, WASHINGTON, 31st Jan. 1854. "MR. EMANUEL LYON .- Dear Sir : I have the pleasure to inform you that the Commission, of the World's Fair, at London, have awarded you a Medal and Certificate for the

great value of your Magnetic Powders, &c. "MILLARD FILLMORE, Chairman." The above was accompanied by a certificate of Prince Albert.

IT IS FREE FROM POISON. NEW YORK, October 1st, 1858. MR. E. Lyon .- Dear Sir: We have analysed and tested

your Magnetic Powders and find them perfectly harmless to haled by bugs, ants and insects.

JAMES R. CHILTON, M. D., Chemist. LAURANCE REID, Prof. Chemistry, N. Y. Hospital. Mr. John L. Rome, Superintendant of the New York Hos-

pital, says, "he has expelled all the bugs, ants, roaches, moths, &c., with Lyon's Magnetic Powder, and finds it of immense value." Every gardner and housekeeper must have a direct interest in an article of this kind. Reference can be made to the Astor, St. Nicholas, and Metropolitan Hotels; to Judge Meigs, President of the American Institute; James Gordon

Bennett, Gen. Winfield Scott, Cyrus W. Field, L. M. Pease, of the Five Points Mission, &c., &c. Judge Meigs says, This discovery of Prof. Lyon is of national importance. The Farmers' Club have tested it thoroughly. It will destroy locusts, grasshoppers, ants, moths, bugs, and all vermin. Garden plants can be preserved, and houses made pure.' Arrangements are now made through Messrs. BARNES & PARK, of New York, to have it sold throughout the world. Many worthless imitations are advertised. Be cautious! "NEW YORK, Nov. 8th, 1858.

"In retiring from business, I have sold all my Insect Powders and Pills, Letters Paptent, and the secrets pertaining thereto, to Messrs. Barnes & Park. The Powder is a discovery made by myself, and brought from the interior of Asia, and is unknown to any other persons. The genuine and effective article is put up in tin canisters, and will continue to bear my name. Rats and mice cannot be reached by a powder, and are killed by a Magnetic Pill. Order them through any merchant.

'Tis Lyon's Powder kills insects in a trice, But Lyon's Pills are mixed for rats and mice. Sample flasks, 25 cents; regular sizes, 50 cents and \$1 00. Follow directions. Use freely and thoroughly.

The steamship City of Washington arrived at New York on the morning of the 19th, with dates from Liverpool to the 5th inst. Italian affairs were more threatening.

At the New Year's levee of the Emperor Napoleon he made a menacing remark to the Austrian minister, which attracted great attention and produced considerable sensation. The Emperor's words were as follows: "I regret that our relations with your government are not so good as they were; but I request you to tell

The emphatic tone of the Emperor, and the animated gesture with which he accompanied his remark, attracted the attention of the assembled diplomatic corps. The Bourse was closed till the 3d, but on the opening on Monday quite a panic prevailed, the decline in the

The money market also closed flat at Vienna, where also, a panic prevailed, under a rumor that Austria would send troops to Belgrade. Italy is still in an unsettled state, particularly Lom-

bardy. The news from all parts is pregnant with alarm, and the steps which have been taken in Lombardy are almost tantamount to a state of siege. The Spanish Ministry have declared that Spain wil

never sell the island of Cuba, and have protested against the insulting hypothesis to the country implied in the President's message. Count Olozaga introduced a motion supporting the ministerial declaration, and it was unanimously approved. Spain has obtained all satisfaction from Mexico for

the Tampico affair.

Horrible Death A Man Rots from Dirt. The Albany Standard announces the death on a canal boat, in that city, of a man named Jnc. Smith, under the following circumstances:

He was sick, and though a woman representing herself as his wife, was on board, yet when the physicians examined him, they found that he was suffering from an attack superinduced by dirt and filth, and that his body was then in a putrid state from neglect and the want of care. The physicians immediately made application to the Overseer of the Poor for his removal to the Alms House Hospital. This was on Wednesday. The permit was granted, but on undertaking to remove him they had to desist fearing that the man would drop apart in their hands. He was therefore allowed to remain to raise an outcry about crinoline, what will they do now? there, and on Wednesday night about 9 o'clock the unfortunate man died, in a state of misery that is seldom if ever beheld.

from Rev. Dr. Deems. Wilson, N. C., Jan. 13. Eds. Express: At 11 o'clock this morning, the new Female Seminary in this place was dedicated in due form. The services of the occasion were opened in the hall of the building by the Rev. J. W. Tucker, with reading from the psalms, singing and prayer, after which Rev. Dr. Deems, in his usual happy style, delivered the dedicatory address to a large and attentive audience. The subject-that of education-was considered by the Dr. in its most compehensive sence, in connection with the spiritual, intellectual, and physical man. Without attempting a synopsis, it is sufficient to remark that the address was in full keeping with the man; applicable, nother and replete with sound loviced deductions. pathetic and replete with sound, logical deduction, pre-senting in a clear lucid and practical manner, the views he entertained in regard to what he conceived to be the true laws and principle upon which the student should found the superstructure of his physical, moral, intellectual and spiritual education.

Apart from this, the building in question is new, hand-some, commodious, comfortable and adapted in every particular to the purposes designed in its erection. Horrible Torture. \* \* \* Let us now pass on to the horrible torture suffered by the venerable bishop. The two servants having been executed, the executioner stretched a mat on the ground, placed a small carpet upon it, broke the chain which was round the neck of his eminence, and made him lie down on his back upon the matting. The bishop wore at this time nothing but a pair of trousers turned up to the thighs. The victim being thus placed, the executioner took two stakes, which he fixed in the ground on each side of him, and to which his hands were tightly bound by cords, causing great pain. His head was then struck off by repeated blows, and lastly his body was opened, and his entrails drawn out with a hook .-Such is the exact account of the death and torture of our dear Melchoir, near the very spot which had been consecrated two years earlier by the martyrdom of his predecessor.
